WHY DON'T WE Recycle

A Regional Study

What Would Help You Recycle?

Our regional landfills are filling up fast.

Recycling helps protect our environment and our health, but we know it isn't always easy or accessible to all.

PlanRVA
Where the region comes together to look ahead.

and

CVWMA
Central VA Waste Management Authority

have partnered

to study the barriers to recycling in our region.

JUNE - SEPTEMBER 2026:

We'll be learning from neighbors in

RURAL + URBAN + SUBURBAN

Apartments, Houses, Condo Communities

Is it too confusing?
Is there no or limited access?
Too expensive?
Heard it doesn't matter anyway?
