

REVIEW & COMMENT: 7/29 - 8/30

Pathways to the Future

TRANSPORTATION

The Richmond region's
Long Range Transportation Plan 2050
update is nearing completion!

The LRTP 2050

is our federally mandated, 20- to 30-year regional blueprint that guides the investment of public funds in multi-modal transportation.

Every 5 years, we update the plan with public input across phases. WE ASKED:

- What matters most? What issues are there?
- Are these the right goals?
- How can we realistically get there?
- Which is your preferred investment scenario?

July 29 - August 30, 2026:
We're bringing the draft plan
to YOU for review and comment.

YOUR INPUT HAD IMPACT!

Consensus

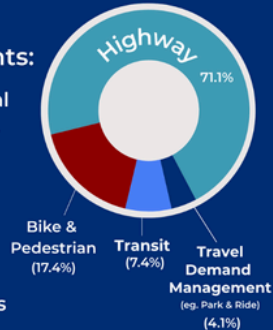

Adopted: April 2026

121 Projects

Adopted Package Ingredients:

- A combination of the "Traditional Usage" & "Mode Shift" packages
- 100% of proposed bike & pedestrian projects selected
- Highway projects also include bike & pedestrian facilities
- \$7.9 Billion in future investments

Final Breakdown of Projects by Mode

Project Category	Selected Projects	% of Proposed Projects
Bike & Ped	21	100%
Transit	9	64%
Travel Demand Management	5	63%
Highway	86	61%

NOTES:

Bridge projects are included in the constrained* plan as part of our ongoing maintenance program.

Rail projects are included in separate regional funding plans.

*realistic & available funding
