

REVIEW & COMMENT: 7/29 - 8/30

The Richmond region's Long Range Transportation Plan 2050 update is nearing completion!

The LRTP 2050

is our federally mandated, **20- to 30-year regional blueprint** that **guides the investment of public funds** in **multi-modal** transportation.

Every 5 years, we update the plan with public input across phases. **WE ASKED:**

- What matters most? What issues are there?
- Are these the right goals?
- How can we realistically get there?
- Which is your preferred investment scenario?

July 29 - August 30, 2026:

We're bringing the draft plan to YOU for review and comment.
